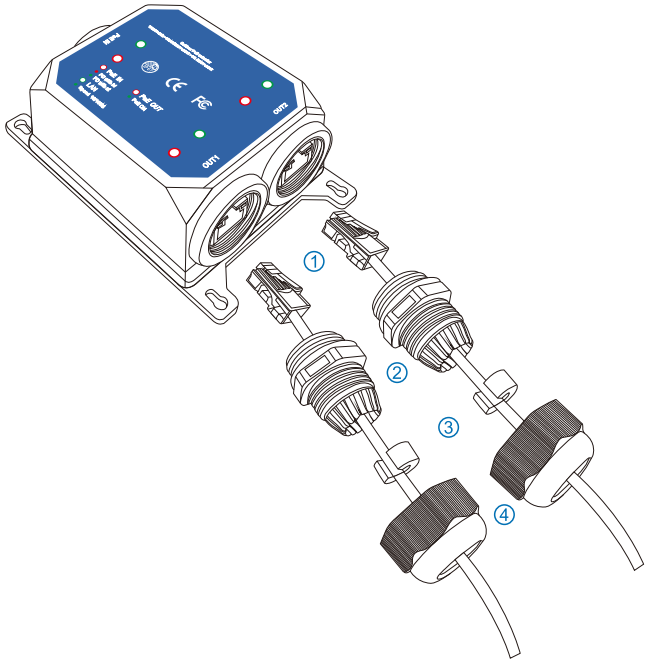
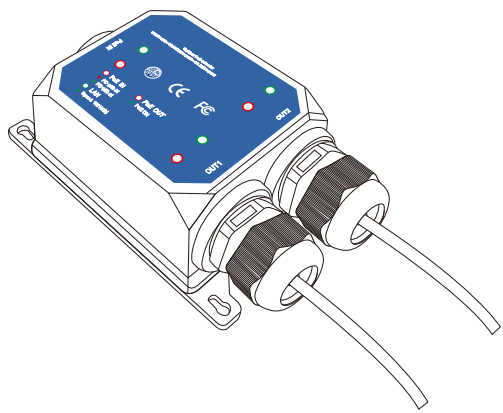
Connection Splitting Diagram



Connection Diagram



Attention

To avoid equipment damage and personal injury caused by improper use, please follow the precautions as below:

¦During the installation process, the power should be maintained in a power-off state.

¦The switch can only work normally under the correct power supply. Please confirm that the power supply voltage is consistent with the voltage marked by the switch.

¦Before switch on, please make sure that it will not cause overload of the power circuit, so as not to affect the normal operation of the switch or even unnecessary damage.

¦In order to avoid the danger of electric shock, do not open the shell up when the switch works, even in the case of no live current, do not open.

¦Don't place other heavy objects on the surface of the switch to avoid accidents.
